Welcome to Chiropractic USA

Welcome to our office! Rest assured that you will be provided the most appropriate and professional healthcare possible. Our most important goal is the constant improvement and maintenance of your health. Before we get started with your examination procedures, which will determine if we can help you, we want you to understand what we do and why we are going to do it.

When a person seeks our care and when we accept a patient for such care, it is essential that they are both working towards the same goals. The goal of our office is to allow your body to function at its highest potential, free from interference and stress that causes dysfunction, disease, and eventually symptoms and sickness. Most importantly, you must understand that our care is not a substitute for medical treatment of any kind, in anyway, or for any reason. The medical approach treats symptoms and diagnoses conditions and diseases. Patients usually go to their medical doctors to get rid of whatever symptoms or conditions are bothering them. This is symptom, sickness and disease care and is necessary in emergency situations. Our approach recognizes that you get symptoms for a reason, attempts to find the cause of the symptoms, and addresses the function of the whole body. This is how we define healthcare; focusing on the optimum function of the individual, and it is what we do it in our office.

We provide various services in our office including Chiropractic care, massage therapy, exercise therapy and nutritional services. The purpose of Chiropractic care is to restore and maintain the integrity of the spine, spinal cord and its nerve roots. Vital nerve pathways are housed within and protected by the bones of the spine call vertebrae. Misalignments of those vertebrae, which interfere with transmission of normal nerve impulses, are called SUBLUXATIONS. Subluxations are the most common cause of nerve system interference (pinched nerve) and cause dysfunction to the tissue and organs that these nerves supply. With appropriate Chiropractic care, these subluxations can be reduced and corrected, which will restore normal nerve function. A properly functioning nerve system is the foundation to good health.

The information we get from you on the following pages is important. For this reason, please fill out our history forms completely and to the best of your ability so that we can quickly get you on the road to health. We look forward to a healthy relationship with you and your family.

I, _____, have read the above, understand it.

Financial Responsibility

Patient Name _____

Dear Patient,

Chiropractic USA provides its services directly to you, not to your insurance company. You are ultimately liable for your bill. If you are billing your own claims, we will provide you with an itemized bill. However, as a courtesy to you, we will bill your insurance company for services rendered provided that your deductible has been met and you pay your co-payment at the time of service. **In the event that we are billing your insurance company and a check is mailed to you, you MUST bring the check into the office within 7 days so that we may properly credit your account.**

I have read and understood all the above information.
